SUMMARY

Web Developer with 1+ years of experience in creating responsive and interactive web applications using **React**, **TypeScript**, **HTML5**, **CSS3**, and **JavaScript (ES6+ standards)**. Skilled in implementing **React Routing**, **API integration**, and developing reusable components for scalable applications. Proficient in modern development tools such as **Git**. With a strong focus on responsive design, modular architecture, and improving user experiences.

PROJECTS

Portfolio Website (React)

nikolozkereselidze.live/

- **UI Design and Responsive Layout**: Developed a dynamic, fully adaptive portfolio showcasing projects across mobile and desktop platforms.
- **Custom Hover Effects**: Implemented skill hover effects for interactive user engagement, with labels appearing exactly at the mouse position.
- **Dynamic Animations**: Integrated animations to enhance project presentations, focusing on UI/UX for immersive interactions.

Travel Agency Website (React)

georgiantravel.netlify.app/

- **Developed Responsive Website**: Created a responsive travel agency website using React for seamless user experience across devices.
- **Performance Optimization**: Enhanced website speed with lazy loading and image optimization.
- **User Engagement**: Added photo galleries, customer reviews, and travel blogs.
- **SEO Optimization**: Improved search engine rankings with SEO best practices.
- **Smooth Animations with Framer Motion**: Utilized Framer Motion to create smooth and interactive animations, enhancing the visual appeal and user experience of the website.
- **Multi-Page Navigation with React Router**: Implemented React Router for efficient multi-page navigation, providing users with a seamless browsing experience across different sections of the website.

Shopping Website (React)

clothingmosaic.netlify.app/

- **React State Management**: Utilized React for state sharing, allowing real-time updates in a responsive shopping cart.
- **Performance-Driven Design**: Enhanced product display with CSS3 for smooth transitions, hover effects, and optimized layout across devices.
- **Dynamic Cart System**: Designed a responsive cart with real-time updates using React hooks, including quantity adjustments and item removal.
- **API for Product Updates**: Integrated a mock API to display up-to-date product information, improving data flow and user interaction.

SKILLS

- **Languages & Frameworks**: TypeScript, JavaScript (ES6+), React, HTML5, CSS3
- **Tools & Libraries**: Jest, Webpack, Git, Command Line Interface (CLI)
- **Development Practices**: Responsive Web Design, Component-Based Architecture, State Management
- **Other**: API Integration, Problem-Solving, Communication Skills
- **Languages**: English (Professional), Georgian (Native)

EDUCATION

Bachelor of Computer Science

Tbilisi State University
